Comments**Receipts:**

In auditing the receipts listed above, we tried first to determine the amount of money which should have been received from each class of receipts and then compared this amount with the corresponding amount recorded in the books of the Town Treasurer and of the Selectmen.

For example, the amount of money turned in from tax collections was verified by a detailed analysis of the Tax Collector's record of collections, taking into account the date of all collections and the consequent discounts which should have been allowed. Similarly, funds received from the State and County were verified by direct correspondence with the State Treasurer and County Commissioner, while receipts from other departments, such as those of the Town Clerk and the Municipal Court, were verified by means of an audit of the records of each department.

Disbursements:

Proper vouchers, in the form of cancelled checks and purchase invoices, were examined to determine

support of the disbursements listed above. Further, we assured ourselves that in all cases disbursements of funds had been properly authorized and correctly distributed in the books of record.

Comments

General:

No consideration has been given in the foregoing Balance Sheet to Plant or Fixed Assets, such as Buildings, Bridges, Sewer System, and the like, for the following reasons:

(1) There was no reliable information procurable with regard to the original cost or the present depreciated value of these items.

(2) It appears to have become the prevailing judgment of authorities on Municipal Accounts that such Assets constitute the property of the People as distinct from the Town, the Town acting only as the Agent of the People in acquiring these Assets for the People through the funds provided by the People.

Crafts Avenue toward South Main Street

144 feet of 10in. pipe. Excavation good.

REPORT OF MILK INSPECTION

The reports received from our State Chemist on samples of milk taken from the Lebanon producers the past year have all showed well above the statutory limits as regards solids and fats.

This year shows lower bacteria count than ever before, some running as low as 5,000 per c. c. with no B. Coli present, this being positive proof of sanitary conditions in regard to production and handling.

We have had no infectious or contagious diseases transmitted by our milk supply.

W. B. Mowers, Milk Inspector.

During the year beginning February 1, 1928 and ending January 31, 1929, the two free beds in the Mary Hitchcock Memorial Hospital, at Hanover, New Hampshire, for the use of residents of Leb-

anon, have been occupied five hundred forty-nine days. Twenty-seven persons have been given the use of these beds.

I. T. Shepard, Recorder.

HEALTH OFFICER'S REPORT

The annual report of the health conditions of the Town of Lebanon for the past year shows a considerable number of minor infectious diseases.

The co-operation of the teachers has been of great help in locating quarantinable and non quarantinable diseases and lessened their spread through the community.

No cases of diptheria, but several mild cases of scarlet fever.

H. B. Hazen, M. D.

Health Officer.

In looking over the Town Report of 1928 I find that 1644 more books were given out the year just closing. Also that we purchased fewer books.

Our schools are growing each year and it is necessary for the Library to provide the required reading not only for the High School students but for the grade schools. A larger appropriation is very much needed. For many students are turned away because there are not enough copies of the required books to supply the demand.

We wish to start the little children in their reading by giving them books which will stimulate their love for reading and be a help to them all their lives.

We need books for students on Scientific subjects. We want books for the many in our midst who are shut-in.

That the citizens of Lebanon may realize the great demand for books upon our library, I wish to state that since June 28th 1926, 2216 persons have taken out books.

This work needs the cordial interest and support of the people of Lebanon.

Respectfully submitted,

Emma M. Morris, Librarian.
